

# Solar stations and solar heat transfer

Innovative System Technology  
for Solar & Hydronics

- Compact wall-hung design heat transfer station
- Integrated variable speed controller
- High-efficiency double wall heat exchanger

FlowCon FA

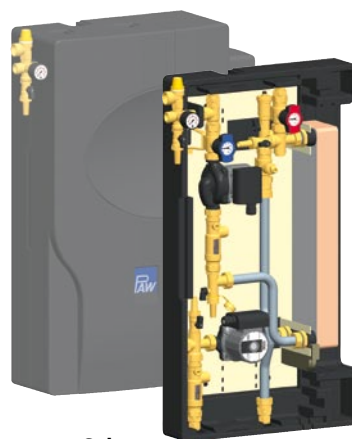

FlowCon C / C+

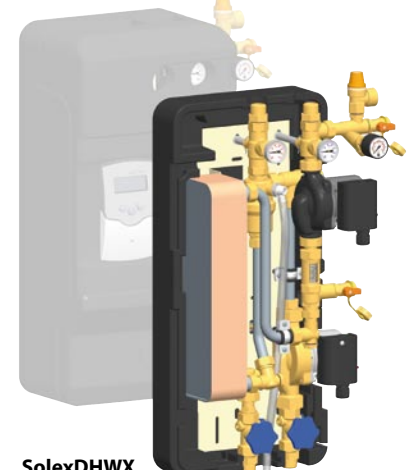

FlowCon S2F

FlowCon Max FA

Solex

SolexDHWX

# Plug-and-play

Innovative System Technology  
for Solar & Hydronics

**High-temperature  
zone modules**

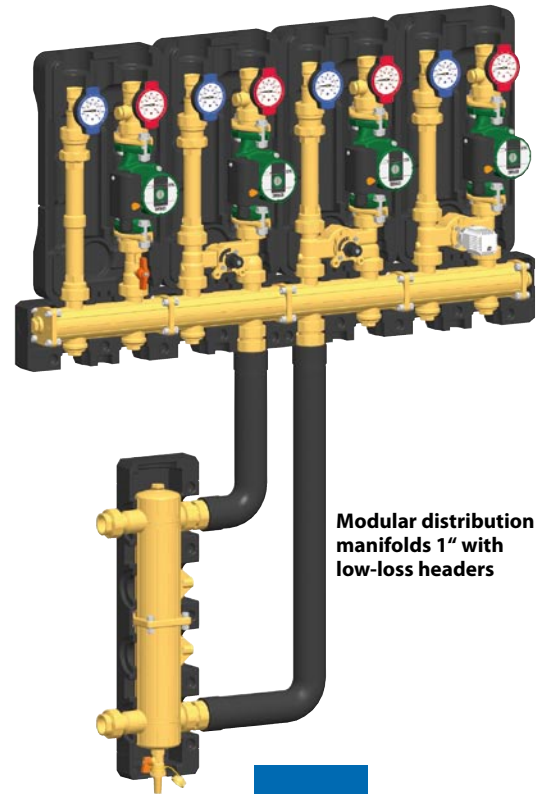

**Low-temperature  
zone modules with  
integrated three-way  
mixing valve**

**Low-temperature zone  
modules with integrated  
three-way mixing valve  
and internal adjustable  
bypass**

**Low-temperature zone  
modules with integrated  
thermostatic mixing valve**

**Modular distribution  
manifolds 1" with  
low-loss headers**
